

# Upgrade your windows with Guardian Glass packages

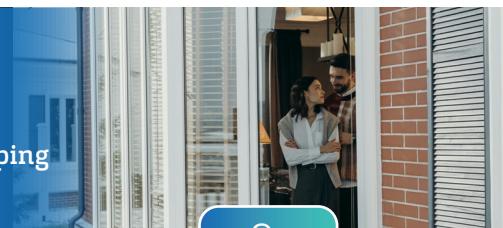

## Upgrade 1: COMFORT

### Guardian® 1.0 Comfort

This package incorporates:  
Guardian ClimaGuard™ Neutral 1.0

#### Choose between:

Even if you renovate, you deserve the same comfort as new buildings. This package complies with Part L Building Regulations, offering retained warmth in winter and helping to reduce heating demand.

Or

### Guardian® Sun Comfort

This package incorporates:  
Guardian Sun™ 35

Help to experience a cool, comfortable home even on hot days, and a warm, cozy home even on cold winters. Also, helps to reduce the demand with heating and cooling, while offering clear views and natural light – all year round.

## Upgrade 2: ADVANCE

### +Safety

This package incorporates:  
Guardian LamiGlass™

#### One package in Level 1 + choose from:

Help protect loved ones from injuries in case of glass breakages.

Or/And

### +Acoustic

This package incorporates:  
Guardian LamiGlass™ Acoustic

Add sound reduction to the safety feature and lower disturbing noise from outside.

Or/And

### +Anti-Burglary

This package incorporates:  
Guardian LamiGlass™ P4A class

Go on vacation or have a good night sleep knowing you are protected with security glass that helps prevent forced entry.

## Upgrade 3: ULTIMATE

### +ViewBoost

This package incorporates:  
Guardian ViewBoost™

#### One package in Level 1 + choose one or more packages in Level 2 +

For a bespoke window – enjoy the view, not your reflections on the glass surface.

Or

### +Dry

This package incorporates:  
Guardian Climaguard™ Dry

Prevent condensation build-up, even during chilly mornings. Start every day with a clear view, eliminating the need for manual defogging.

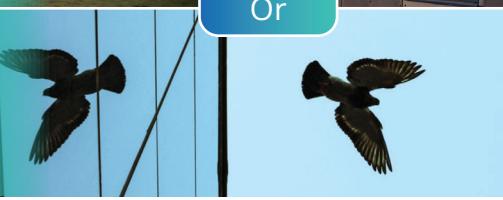

Or

### +Bird1st

This package incorporates:  
Guardian Bird1st™

Helps to prevent birds from colliding with buildings.

Or

**Do you want a lower carbon window? Select base glass on Guardian NEXA™ 9 and achieve approximately 16% reduction of embodied carbon.** (As of May 2025, the comparison with the European average is based on an in-house analysis using publicly available EPDs. It does not constitute a third-party validated comparative LCA and may include methodological differences.)
