

MODIGUARD®

UltraMirror™

What is mesmerizing is
a true reflection of you

MODIGUARD[®] UltraMirror[™]

MODIGUARD[®] UltraMirror[™] transforms internal spaces while adding radiance and perspective to its surroundings.

It is produced by depositing a layer of silver onto the glass, which is then treated, protected by a layer of highly resistant protective paint. Its state-of-the-art manufacturing process is environment-friendly and improves the overall durability and optical quality of the product.

MODIGUARD[®] UltraMirror[™] comes in four impeccable variants.

MODIGUARD® UltraMirror™ Clear

Clear mirrors possess great reflectivity. Be it a home or an office, these mirrors bounce back the light that falls on them with extreme precision, creating amazingly bright spaces.

Best suited for
Homes | Office Spaces

MODIGUARD® UltraMirror™ Sparkle

Sparkle mirrors add vitality and glamor to the spaces which they adorn. Their crystal-like visibility makes them the first choice since they are color-neutral and provide ultra-clear reflections.

Best suited for
Salons | Gymnasiums | Jewelry Showrooms

MODIGUARD® UltraMirror™ Bronze

Bronze mirrors truly stand out from the crowd. With an impeccable finish, these glasses are classy and suave, unlike regular mirrors which are more about utility than style.

Best suited for

Elevators | Wall Panels | Wardrobe Doors

MODIGUARD® UltraMirror™ Grey

Grey mirrors are elegant, niche mirrors that can transform any space due to their unparalleled radiance and immaculate finish.

Combine this product with appropriate lighting to create stunning surroundings.

Best suited for
Restaurants | Entrance Hall | Washroom Spaces

Transforms internal space with radiance and perspective.

Provides protection against corrosion, chemicals, moisture and abrasion while adding beauty and elegance to any setting. MODIGUARD® UltraMirror™ is a beautiful and durable product.

It is available in different variants namely **Clear, Sparkle, Bronze, and Grey.**

Appeal

Experience beautiful, enduring, elegant reflections.

Light & Space

Bringing new dimensions into play, UltraMirror™ makes small and confined spaces look bigger while instantly lighting up dark and dull rooms.

Using a new patented process Gujarat Guardian Limited now produces high performance UltraMirror™ with outstanding technical properties, exceeding the toughest industry standards.

MODIGUARD® UltraMirror™ Range

Thickness

2 mm to 8 mm

Size

Up to 3660 mm x 2440 mm

Features

Highly Reflective Appearance

These are highly reflective mirrors which offer a true image reflectance with virtually no distortion.

Heat Resistant

These mirrors can function in temperatures up to 60-degree Celsius. Avoid direct exposure to sunlight or usage in exterior applications.

Easy Cleaning

To wash these mirrors easily, use a clean cloth and standard non-abrasive glass cleaners.

Multi-Purpose Processing

For different fabrication processes such as drilling and grinding, these mirrors should be cut on the glass side.

Moisture Resistant

Despite being moisture-resistant, these mirrors should avoid being immersed and/or directly installed in contact with moist surfaces like wet walls or any such moist backgrounds. This is to ensure full protection of its edges.

Environment Friendly

These mirrors respect the environment and as per the standard requirement of Guardian® Glass AME & I, Processed Glass EPD® and Product Lens™ documentations cover MODIGUARD® UltraMirror™ Clear products.

* MODIGUARD® Float Clear substrate is used for manufacturing UltraMirror™ Clear products and conforms to Indian Standard IS 14900 : 2018 –

“Transparent Float Glass – Specification”
